

BORDON AREA ACTION GROUP

BAAAG

FOR SENSIBLE PLANNING

PO BOX 180 BORDON GU35 5BP baag@baaga.co.uk

MASTERPLAN WARNING

Beware of loaded statements & questions

The Council's latest masterplan avoids key issues like doubling Bordon's population. It disguises developing on Hogmoor Inclosure, playing fields and farmland, endangering habitats, high density housing, cuts in water use, more traffic and air pollution, paying to use your car and imposing urban controls. Drawbacks that will not be forced on towns like Alton or Petersfield. The jobs, transport and facilities it dangles are faint hopes.

Ticking the 'support' box gives all the above a green light!

Say NO Say what you really want

BAAG does not oppose an eco-town, just over-expansion

BAAG's key aims are:

- Develop only previously built (brownfield) land
- Conserve our natural and built environment
- Maintain our rural way of life
- New jobs and facilities *before* any new houses
- Revitalise the *existing* town centre
- Make the *existing* town "green"
